

NO MORE WOMEN LIKE THESE, HE SAYS

Gladys Hinckley, Maude Minahan, Dr. Wiggam and Mrs. Gibson.

That the white race is going backward, that civilization is self-destructive and destroys the man that builds it, that popular notions of heredity are wrong, were the startling statements made by Dr. Albert Edward Wiggam, hereditarian expert, to a thousand school teachers at Dayton. "You educate the brain cell, the body cell, but you cannot educate the germ cell," declared Wiggam. "The American woman is rapidly becoming ugly. Mingle with our pure American strains, as is rapidly being done, the blood of the low, flat-chested, broad-faced peasant of southern Europe, and women like Gladys Hinckley, Mrs. Gibson and Maude Minahan will soon exist only in our pictures and statuary."

COLFAX PUPILS WIN PRIZES

The Colfax W. C. T. U. has awarded three prizes to children in the Colfax school for essays on the subject of "Scientific Temperance." Ten es-

says were submitted to the judges and the prizes were awarded as follows: First prize, \$2, Miss Rita Parsons; second prize, \$1.50, Miss Inez Slocum; third prize, \$1, Miss Miriam Appleby. The contest was limited to the children of the sixth and seventh grades.

HOUSE ENDORSES ILLITERACY TEST FOR IMMIGRANTS

Underwood Declares it Country's Right to Maintain a Standard of Living, Morals and Home.

WASHINGTON, Feb. 2.—The United States literacy test to be applied to immigrants was endorsed by house members Monday by a vote of 173 to 120. A record vote on the proposition will come when the bill is brought out in the house on final passage.

When the house adjourned Monday evening it had failed to act on an amendment to the immigration bill proposed by Rep. Hayes of California excluding as immigrants Hindus and members of the yellow race, Malays and members of the brown race and members of the black race.

Bitter personal prejudice and political rancor marked consideration of the bill. Chairman Burnett started to leave the house to fight with Rep. B. M. Mahan of Connecticut but Rep. Alexander of Missouri caused cessation of the threatened hostilities. Rep. Baker of California accused Rep. Hayes of smothering the Asiatic exclusion legislation while republicans were in power and advancing it now to embarrass the democrats.

Chairman Burnett pledged that the Asiatic exclusion bill under consideration by his committee would be brought into the house for consideration. He said he could not forecast its exact provisions. Objection to including its terms in the immigration bill, he said, arose through fear that the senate might reject the immigration bill, or the president veto it because Japanese immigration was a matter of treaty consideration.

Rep. Goldfogle of New York forced a vote on the literacy test clause by offering an amendment to strike out that feature of the bill. The move was followed by the proposal of many substitutes for the literacy test clause. Chairman Burnett endeavored to shut off debate and was defeated, 194 to 83. The clause then stood as originally offered.

Democratic Leader Underwood, sounding a democratic rally, declared:

"The proposed literacy test is not directed against any nation or any race. When we exclude the insane and the criminal, we admit the right to draw the line. We want to maintain the standard of living, of morals and of home. The literacy test will help to maintain that standard. The states spend millions to maintain this standard through public education.

Why admit the illiterate not up to that standard of education and exclude the criminal and insane as not up to the standard of morals?" Rep. Madden, republican, of Illinois, said:

"The test of admission should be morality, integrity, physical fitness, frugality, energy and willingness to work. If a man has these qualities and cannot read or write, he should not be disqualified. The man who builds the sewers and lays the water mains in our great cities performs a more important function to society than the man who runs the bank. The first aids in the construction of a system of sanitation for the health of the people; the latter preys on the necessities of the people."

Declaring the literacy test as unconstitutional, Rep. Stafford, republican, of Wisconsin, succeeded by a vote of 134 to 34, in having incorporated a provision permitting aliens already here, desiring to revisit their homes for six months to return to this country without undergoing the literacy test.

ST. JOSEPH CO. LEADS IN FIGHT FOR PROHIBITION

According to a report from the state W. C. T. U. committee, St. Joseph county sent in the largest number of signed resolutions approving the national prohibition amendment as a result of National Prohibition day which was observed all over the country Jan. 15. The report was given Monday afternoon at a meeting of the executive committee of the county W. C. T. U. at the W. C. A. Eighty organizations in St. Joseph county, including churches, church organizations, the Christian Temperance union and other societies, signed resolution and sent it to the state department.

Arrangements were also made at the meeting yesterday for a concert to be given Feb. 20 in the Progress club rooms by Miss Crossdale and her company of entertainers. Miss Crossdale comes from New York and was heard in South Bend with pleasure last year.

EXPECT FIRST BABY FOR FRENCH PRESIDENT

PARIS, Feb. 2.—For the first time in the history of France a presidential baby is expected to arrive in the Elysee palace. No announcement has been made but personal friends of Pres. Poincare say the happy event is looked for this summer.

During the term of Pres. Fallieres his daughter became an Elysee bride but the stork up to this date has been an unknown bird at the presidential palace. Madame Poincare is 46 and the president 50.

AUTO TURNS TURTLE

HARRODSBURG, Ky., Feb. 2.—Leslie Edwards, 21, is dead, and Buford Terhune, 22, is in a critical condition Monday night, the result of an automobile accident. While returning here from Lexington their machine turned turtle and Edwards was smothered beneath it. Both were prominent.

NO REBATING IN COMMISSION RULE

Recent Order Regarding Freight Switched to Short Lines Followed Request for Ruling Made by Railroads.

PHILADELPHIA, Feb. 2.—Samuel Rea, president of the Pennsylvania Railroad Co., has authorized the following statement:

"It should be clearly understood by the public that the decision of the interstate commerce commission recently published, concerning allowances to short lines of railroad serving industries, does not contain any suggestion that the practices detailed therein constituted secret rebates.

"The rates covering the allowances by the railroads to these short industrial lines have been published and on file with the commission, and were and are, therefore, a matter of public record.

"The commission itself, in the full opinion, makes this statement: 'It is proper to say that the whole matter was voluntarily brought to our attention by certain of these industries and the line railways which serve them.'

"The demands of plant railways for larger allowances, the increasing number of industries that were incorporating railroad companies to take over the operation of their plant tracks and locomotives with a view to demanding allowances, and the growing volume of complaint against the discriminations arising out of these relations between the line carriers and the industries so favored, together with certain formal and informal rulings by the commission in other cases, had combined to raise a doubt on the part of the carriers and the industries as to the legality of these allowances and free service.

Laid Before Commission.

"The entire situation was laid before the commission by the railroads and industries involved three years ago, no method of solving the peculiarly complicated questions involved having been worked out by the carriers and the industries who had for many years previously recognized that a more definite and systematic treatment of the whole problem necessary.

"In the briefs filed on this subject on behalf of the Pennsylvania, the New York Central, the Baltimore & Ohio, and the Erie Railroad systems, the following suggestion was made by the railroads themselves: 'The payment of any allowance for the performance of this service inevitably creates suspicion, gives rise to complaints, and the only way to effectually deal with the problem is to abolish all allowances for the performance of this service either by the industry itself, or the industrial railroad.'

There was no secrecy about any phase of the subject. The effort of all

TURN RESORT INTO CRITTENDEN MISSION

WASHINGTON, Feb. 2.—Reformers carried their fight to save fallen women in Washington's red light district legislated out of existence by the Kenyon bill into the heart of the district itself. One of the notorious resorts was rented by the Florence Crittenden mission and its former proprietress hired to use her influence with the women. All seeking shelter or work will be received here and cared for.

TO TAKE PICTURES ACROSS ATLANTIC

BERLIN, Feb. 2.—The probability of transmitting pictures across the Atlantic by cable was foreshadowed Monday night by Prof. Korn, who announced that the solenium method of telegraphing photographs had been perfected to such a degree that it may be possible within a year to transmit pictures from Europe to the United States.

DR. FLEENER'S STATEMENT OF FACTS

The Specialists Who Devote Their Entire Time to Chronic Diseases of Men and Men Only

We Know How to Cure Nervous and Chronic Diseases of Men

Science is on the wing. Treatments used one year ago are back numbers now. To be a TOPNOTCH Specialist requires not only skill and energy, but capital. The public is not satisfied with a doctor who sticks in the OLD RUT. Neither is it satisfied with the electric belt fakir or the pretending specialist. Nowadays men demand up-to-date treatment, not smooth talk and empty promises. To be a leader now it is absolutely necessary that you possess an EXTENSIVE LABORATORY where scientific investigation can be continually carried on. This we have, and we are prepared to give our patients the benefit of all the GREAT DISCOVERIES as soon as they are perfected. Others watch our announcements and at once they claim to do the same things. Men come to see us because they read our STRAIGHTFORWARD OFFERS, or because we have CURED some of THEIR FRIENDS. WE ARE PROUD OF OUR RECORD.

"914" CURES BLOOD POISON.

No Pain. Return Home Same Day.

Giving a patient Neo-Salvarsan, "914," Prof. Ehrlich's New German Remedy for Blood Poison. This is the intravenous method, directly into the blood, the only way it should be given.

Extract from letter of Prof. Ehrlich: "... Judging from all the reports received by me, it appears that the intravenous injection is to be preferred to all other modes of administration, as far as permanency of effect is concerned. Although I have to admit that this method of administration will prove an obstacle to the introduction of the remedy in general practice, on account of certain technical difficulties. I believe that the interests of the patient demand that only the most efficient form of treatment should be decided upon."

"I should feel much obliged to you if you will—as heretofore—assist me in this direction, and in the future employ as much as possible the intravenous mode for the administration of the remedy. (Signed) P. EHRLICH."

Thomas A. Edison, the great "electrical wizard," says: "The German discovery for the cure of Blood Poison is the most important achievement of the year 1911—and that most of us have the disease and do not know it."

We guarantee a painless and safe treatment, giving the Genuine German Remedy according to the great German professor's latest instructions. OUR METHODS appeal to those who THINK and who want the benefit of the LATEST SCIENTIFIC PROGRESS that drives DISEASED GERMS out of your body. Our advice is FREE and valuable, whether you are treated or not. If you need help, make your wants known to an HONORABLE SPECIALIST. No matter about money. COME if possible. IT'S BEST. We will explain to you our treatment for Varicose Veins, Nervous Debility, Blood Poisons, Kidney Diseases, Bladder Troubles and other diseases of mankind.

WARNING—Electrical Treatment, Electric Belts, Suspensory, Bandages, Medicines, locally or internally, will never cure any man of Varicose, Hydrocele, Piles, Rupture, Stricture, Fistula, and when a doctor tells you he can cure you by such methods he is only after your money.

DISEASES OF MEN

Lost Power the Cause of Mental and Physical Suffering

Perfect health is possible only when every function of the human body is properly performed. Man is the paragon of animals, the perfection of all created beings, but how seldom do we see the true, the perfect man, walking among his fellows a solitary gem? How many who fail to reach the dimension of their splendid model? And yet the young man, the middle-aged man, the man of mature age who walks the streets with head hanging, afraid to meet the eye of his fellow beings, dreading lest they read his inmost secret, still follows the path of ignorance, for while his youth may be wrecked, while his vitality may be lowered, while his body may be prey of his mind, yet there is hope, that his living death may turn and give him years of happiness, lifting him to that plane of manhood, which all men should tread. We want to help men who are weak in vitality, who are nervous, despondent and lacking self-confidence; who feel as if old age was coming on too soon, because of the dulling of their youthful fire and ambition.

A SURE CURE—A SMALL FEE

To be strong is the aim of every man, and yet how many we find who are wasting the vitality and strength which Nature gave them. Instead of developing into the strong, vigorous man that Nature intended them to be, they find themselves stunted and despondent—no ambition to do anything. They struggle aimlessly along, sooner or later to become victims of that dread disease, nervous debility, their finer sensibilities blunted and their nerves shattered. It is hard for a weak man to have noble sentiments; such things are born of warm blood, healthy nerves and strong heart. Every weak man is more or less despondent, lacks the magnetic enthusiasm of youthful energy, and should not hesitate to make almost any sacrifice to again be happy, light-hearted and full of joyous impulses, to be free from brain wandering and dull, stupid feeling, to have confidence and self-esteem, and command the admiration of men and women. It is the law of Nature that all of the powers of the body and brain should be retained unimpaired until the last. The vitality of youth can be conserved by right living, and it is only because men ignorantly and recklessly waste their store of nerve force that they become feeble wrecks and find life not worth living. Scores upon scores of men of all ages and in nearly every walk of life have been rescued by Dr. Fleener Co. With them the treatment of these diseases is not an experiment. If they feel that they can't cure you, they say so and you part friends. You cannot afford to neglect this condition, neglect has strewn the seeds of discord and unhappiness in hundreds of homes, which otherwise would have been the abode of peace and happiness. The greatest gift to man is a healthy, Manly System; if your vitality is not what Nature intended, you are the cause, and inasmuch as it lies within your reach to have this gift restored, what man, who is truly a man, will not seek the opportunity?

DO YOU SUFFER with sour stomach, bloating after eating, headache, backache, dizziness, specks before your eyes, hot and cold flashes, lame back, scanty, high-colored urine, burning, stinging or difficult urination, spots under skin, loss of energy, ambition, vim, vigor, vitality, bashful, timid, nervous weakness, loss of confidence, brooding, blues, lack of ability to concentrate mind, thoughts wander, cold feet, itching of skin, vital loss, excessive thirst, pain around the heart, at base of brain or down limbs? Do you have difficulty in fixing your thoughts? Is your memory poor? Do you get weak suddenly? Are you nervous and irritable? Are you the man physically and mentally that you formerly were? Can you accomplish what your healthy friends and acquaintances can? If not, you are laboring under a great handicap. Come and let us make you strong and well again at a very small cost.

I also cure Rupture, Rheumatism, Piles, Fistula, Kidney and Bladder and Prostatic Diseases, Blood Poison and all other Men's diseases quickly, permanently and without pain or loss of time. Examination free. Begin treatment now—today. All letters promptly answered.
